

Use MODBUS, 4-20mA or wireless Bluetooth temperature and humidity sensors.

Monitor water levels with a level switch or depth sensor connected to the 4-20mA inputs.

Connect door switches directly to the inputs.

Monitor the location of animal transport trailers with the inbuilt GPS.

SENQUIP

# Animal Enclosure Monitoring

Keep your animals safe by monitoring the environment of enclosures at farms, stables, kennels, and zoos.

Monitor temperature and humidity of enclosures during weather extremes.

Ensure adequate water supplies. Know that gates are closed.

Receive email and SMS alerts directly to your phone.

# SENSOR CONNECTIVITY MADE EASY

# Why Senquip?

## Connect to Anything

Interface to any engine, controller, or sensor, no matter the brand, physical interface, or protocol.

#### Process Everything

Edge process measured data, create custom alerts, and control connected systems.

#### Send Anywhere

Send data to the Senquip Portal or any other server. No ongoing costs, no lock in contacts.

# Trusted Everywhere

Designed for use in harsh industrial, mining, and agricultural environments.

#### Senquip ORB

For extreme environments where IP ratings are essential and external antennas may be damaged. Typically mounted on poles, walls, and externally on machines

#### Senquip QUAD

For harsh environments where external antennas are a benefit. Typically found in electrical cabinets, in operator cabs, and mounted externally on machines.

# Senquip Portal

The Senquip Portal is a secure cloud solution that offers a no-cost or low-cost device management and data hosting + analytics solution for Senquip devices.
